

# INSTALLATION INSTRUCTIONS

Part Number KA-1406

**This filter fits:** SEE CATALOG FOR CURRENT APPLICATIONS

Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter will last 1 million miles or more. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N Filtercharger® seals properly.

## INSTALLATION

1. Remove the stock air filter.
2. Apply a bead of the provided K&N Sealing Grease to the three sealing sides of the K&N Air Filter. Do not apply grease to the pry groove side. (Fig. 1)
3. Install the K&N Air Filter into the frame making sure it is completely seated. (Fig. 2)  
**Note:** The pry grooves on the K&N Air Filter will be facing out and up when installed in the motorcycle. (Fig. 3)
4. Reinstall the air filter cap.

## REMOVAL

1. Remove the air filter cap.
2. Using a flat tip screwdriver gently pull the filter out using the pry grooves. (Fig. 3)

**THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.**
