Congratulations, you have purchased the finest air filter that money can buy. With proper care, this filter can last many seasons. This filter can be used in a stock machine, with no modifications required. If any engine modifications have been made tuning/jetting adjustments may be required. There are special installation instructions, so please follow the procedures outlined below to ensure the K&N® air filter seals properly.

INSTALLATION:

1. Remove the air box lid.
2. Remove the two screws that secure the air filter holder to the cage. (Fig. 1)
3. Remove the stock air filter and cage. (Fig. 2)
4. Install the provided plug into the hole on the air filter holder. (Fig. 3)
5. Carefully clean the inside of the air box especially where the air filter sits.
6. Install the K&N® air filter into the air box.

NOTE: The notches on the K&N® air filter will line up with the tabs in the air box. (Fig. 4)

7. Reinstall the air filter holder.

NOTE: The provided plug will be closest to the clips on the air box. (Fig. 5)

8. Tighten the center screw.
9. Reinstall the air box lid and fasten the clips.

THESE INSTRUCTIONS MUST BE FOLLOWED EVERY TIME THE FILTER IS SERVICED, OTHERWISE THE FILTER MAY NOT SEAL, AND DAMAGE TO THE ENGINE COULD RESULT.
