

Description: 3rd Brake light
Part Number: 531040
Application: 00-06 Toyota Tundra

Tools needed
Phillips Screwdriver

Remove the 2 outer screws from
the stock light housing.

Pull the light assembly straight
out.

Unclip the harness from the stock
light.

Connect the plug from the
new light to the plug coming from
the vehicle.

Re-install the light using the
supplied screws. Be sure to
check for proper function before
operating vehicle on public
highway.

AnzoUSA™ products are covered, by a limited one (1) year warranty, to be free of manufacturer's defects. However, certain AnzoUSA™ product categories have warranty policies which differ from this standard, please contact your representative for detailed category information. Damage due to improper installation or road hazards is not covered. Seller and manufacturers' only obligations shall be to replace the product proven to be defective. Neither seller nor manufacturer shall be liable for any injury, loss or damage, direct or consequential, arising out of the use of or the inability to use the product. Before using, user shall determine the suitability of the product for its intended use, and user assumes all risk and liability whatsoever in connection therewith.
