K&N® Cabin Air Filters replace your vehicle's stock cabin filter with a reusable design that cleans and freshens incoming air. They are electrostatically charged to grab and hold dust particles. K&N® cabin air filters help control odors while they help capture most mold, mildew, fungus, spores, bacteria and germs. When they get dirty they can be cleaned and reused and best of all, they come with a 10 year/Million mile limited warranty.

If you need any assistance please call 1-800-858-3333 to speak with a representative in our Customer Service Center before returning the product.

When applicable, refer to owner's manual for manufacturers installation/removal instructions. The following are helpful steps when replacing/servicing cabin air filter with K&N® cabin air filter.

1. Open the hood and locate the cowl cover on the passenger side. Fig. 1
2. Twist the 4 plastic nuts $\frac{1}{4}$ turn counterclockwise and remove the cowl cover. Fig 2
3. Remove the electrical connector. Fig 3
4. Twist the 3 plastic nuts $\frac{1}{4}$ turn and remove the filter lid. Fig 4
5. Turn the filter lid over to locate the two filters. Press the tabs in to remove the dirty filters. Figs 5 & 6
6. Install the K&N® filters so that the 4 tabs on each filter lock into the slots on the lid. Figs 7, 8, & 9
7. Reverse steps 1-4 to complete the installation. With the cabin filters installed, clean an area on the filter lid and apply the K&N® Stop Decal. The decal will help notify others that these are re-usable cabin filters.
